FOR IMMEDIATE RELEASE

Caltrans to close Hawthorne Boulevard (State Route 107) in both directions to install loop detectors

TORRANCE – The California Department of Transportation (Caltrans) will close Hawthorne Boulevard (State Route 107) in both directions this week to install new loop detectors.

The detectors are road sensors used to monitor traffic flow and overall highway performance.

Starting tonight at 10, the following closures will be in place on both northbound and southbound State Route 107 between Sepulveda Boulevard and Pacific Coast Highway (State Route 1):

- Monday/Tuesday/Wednesday, Nov. 27-29: 10 p.m. to 6 a.m.
- Friday/Saturday/Sunday, Dec. 1-3: 10 p.m. to 6 a.m.

The closures are weather permitting and subject to change. One lane will remain open in both directions at all times.

The work is part of a \$5 million emergency pavement project on Hawthorne Boulevard from State Route 1 to Fashion Way. The work started in September and includes replacing damaged asphalt, restriping lanes and installing loop detectors

The project is scheduled to be completed next month. R.J. Noble Company of Orange is the contractor.
